DIRECTOR OF CENTRAL INTELLIGENCE
Science and Technology Advisory Panel

02 NOV 1981

STAT

Dear 

STAT

I received your letter of resignation with regret the other day. I am sorry to see you leave but understand the burden that your responsibilities have placed on you. You have helped to mold STAP into a very useful tool and sounding board for the DCI. Your perspective as an economist was most useful to the Panel (with its primarily scientific outlook). Your comments at the Panel meetings have always been very helpful and well received.

I have truly enjoyed our association on the Panel together and hope that you will keep in touch. When you are in the Washington area, please give me a call.

Sincerely,

STAT
